

Week 3: An Effective CV/Resume

- From a spoken pitch to... written bullets!
- Life is short, everybody is in a hurry.

Write a Winning Resume and Cover Letter
and Land Your Dream Job

WHAT COLOR
IS YOUR
PARACHUTE?

GUIDE TO _____
RETHINKING
RESUMES

RICHARD N. BOLLES

Author of the Best-Selling Job-Hunting Book in the World,
with More Than 10 Million Copies Sold

So many books available...

Plan for today

- Bridge the pitch
 - spoken **finding** and **relevance** (written as a **bullet**)
- CV vs resume
 - structure and then bullets
- **Rewrite** and pair up
 - draft bullets, trade, three second testing

Last week “pitch” had 4 parts problem, approach, finding, relevance

- finding and relevance —> become one written line, the CV bullet

Academic CV

Exhaustive and chronological.
Every publication, grant, talk, and teaching role.
No length ceiling.
The reader wants the complete record.

Industry resume

One page (maximum!).
Ruthlessly selective.
Organized by relevance to the role.
Written to survive a six-second scan and an Applicant Tracking System (ATS) keyword filter.

BWT, do **not** play games with *LLM prompt injection* !!

Academic CV

1. Degrees and Habilitations

Jun 9th, 2023	Italian Natl. scientific qualification/habilitation as “full professor” (PHYSIOLOGY) - Italian Ministry of University and Research (MUR)
Mar 6th, 2017	Italian Natl. scientific qualification/habilitation as “full professor” (BIOENGINEERING) - Italian Ministry of University and Research (MUR)
March 5th, 2001	<i>PhD in Bioengineering</i> (eval: excellent) Polytechnic of Milan (Italy)
Jul 1st, 1998	<i>Italian Exam Chartered Engineer</i> (110/110) Univ. Genoa (Italy)
Jul 24th, 1997	<i>Laurea degree in Electronic Engineering, specialty in Biomed. Eng.</i> (110/110 <i>cum laude</i> , 5 year study curriculum, MEng equivalent) Univ. Genoa (Italy), Dept. of Biophysical and Electronic Engineering
Jul 13th, 1992	<i>High-school Diploma</i> (57/60) <i>Liceo Scientifico Champagnat, Genova (I)</i>

2. Present positions

Jan 1st 2024 –	Associate Professor (BIOENGINEERING) and Lab Director Dept. Biomed., Metab. & Neural Sci., Univ. Modena & Reggio Emilia (I)
Jan 1st 2024 –	10% – Associate Professor (PHYSIOLOGY) and Lab Director Neuroscience Area, SISSA - Intl. School Advanced Studies, Trieste (Italy)

A “formula” for each bullet!

Action verb

Built, designed, ran, coordinated, attracted, managed,...

Specific Task

What, exactly, on what system

Concrete outcome

A number, or a scope (e.g. in under two weeks)

“Quantifiable” does not always mean a percentage

Duty language vs outcome language

	Weak	Strong
1	<i>Responsible for data analysis.</i>	<i>Built a Python pipeline that cut MEA burst-detection analysis time from three days to 4h.</i>
2	<i>Assisted with lab experiments.</i>	<i>Ran 30+ patch-clamp recordings supporting two publications.</i>
3	<i>Helped organize a student conference.</i>	<i>Coordinated logistics for a 150-attendee conference across three venues.</i>

“Quantifiable” does not always mean a percentage

EXECUTIVE PROFILE

Scientific MedTech leader with **18+ years of experience** in the clinical lifecycle of **ophthalmic implantable medical devices**. **PhD in Neuroscience** with a proven track record of establishing **high-level scientific credibility** for "first-in-class" neuro-prosthetics. Expert in translating complex **R&D and Phase 2 clinical data** into evidence-based communication strategies for **CE Mark and FDA approval**. Extensive experience as an **intra-operative surgical proctor**, providing technical support to elite Vitreo-retinal surgeons during complex implantations. Specialized in navigating European **clinical reimbursement pathways** and fostering long-term, trust-based partnerships with **global Key Opinion Leaders (KOLs)** and academic centers of excellence.

CORE COMPETENCE: OPHTHALMIC MEDICAL DEVICES ENVIRONMENT

- **Scientific Leadership & Clinical Pedigree:** Leveraging a **PhD in Neuroscience** to lead unbiased medical-scientific dialogue and translating complex Phase 2 through post-market clinical data into compelling scientific value propositions for **CE Mark and FDA approval**.
- **Strategic KOL & Network Orchestration:** 18+ years of experience building trust-based relationships with elite global **ophthalmic surgeons** and academic centers , architecting the European scientific footprint for pioneering neuro-tech from the ground up.
- **Intra-Operative & Educational Expertise:** Proven authority as an **on-site OR proctor**, providing real-time technical surgical support and developing high-level medical education programs for cross-functional internal and external teams.
- **Market Access & Ethical Governance:** Deep mastery of European healthcare systems and clinical reimbursement pathways—including **Forfait Innovation (FR)** and national systems in **DE and IT** —while maintaining strict adherence to compliance and international industry codes.
- **Global Communication:** Trilingual leadership (**Native Italian; Bilingual English & French**) with extensive experience navigating complex international matrix environments.

1/5

Maura Arsiero's Curriculum Vitae

Professional Experience

Jan 2026 – today Senior Medical Affairs Manager, Surgical EMEA - Bausch+Lomb EMEA

- **Regional Medical-Scientific Leadership:** Establish and maintain high medical and scientific credibility for the Surgical portfolio across EMEA, acting as a trusted expert partner for internal cross-functional teams and external medical stakeholders.
- **Thought Leader Strategy & Engagement:** Develop and execute the EMEA Surgical Thought Leader strategy, identifying, profiling, and engaging KOLs, rising experts, medical societies, and academic centers of excellence through long-term, trust-based scientific relationships.
- **Medical-Scientific Communication:** Lead regional communication initiatives by disseminating, clarifying, and contextualizing clinical evidence, while planning and moderating advisory boards, steering committees, symposia, and scientific working groups.
- **Clinical Research & Evidence Generation:** Provide scientific input into clinical and pre-clinical research protocols, support evidence-generation initiatives, and contribute to the review of EMEA Investigator-Sponsored Research proposals.
- **Internal Training, Insight Translation & Compliance:** Deliver medical-scientific education to Sales, Marketing, Clinical Affairs, R&D, Regulatory, and Product teams; translate external insights into actionable recommendations; and ensure compliant, ethical, evidence-based scientific exchange.

Jul 2023 – Dec 2025 Senior Marketing Manager, Surgical - Bausch+Lomb Italy

- **Scientific Communication & Evidence Translation:** Spearheaded the transformation of scientific literature into high-impact medical-scientific assets to support data-driven clinical adoption.
- **KOL Strategic Advocacy:** Developed programs to elevate the scientific persona and professional credibility of key regional experts, leveraging their visibility for international congresses, advisory boards, and peer-to-peer scientific forums.
- **Medical Education & Training:** Architected and delivered comprehensive medical-scientific training programs to internal cross-functional teams and external healthcare partners.
- **Product Launch & Scientific Strategy:** Executed Italian launch plans for innovative ophthalmic devices, utilizing competitor analysis and market insights to refine the medical value proposition.
- **Strategic Scientific Events:** Orchestrated scientific coordination and content for over 40 annual conferences, including symposia, user meetings, and advisory boards, to drive medical community engagement

Oct 2021 – June 2023 International Head of Marketing and Business Development - Samsara Vision

Given the "ready-to-go-to-market" characteristic of the portfolio, my primary focus was to coordinate Sales and Medical Affairs/Clinical teams to ensure that commercial strategies were supported by robust clinical data and regulatory compliance.

Moreover I was concentrating in identifying and engaging Key Opinion Leaders (KOLs) to build scientific credibility and support clinical adoption, while overseeing the lifecycle of products (defining the value proposition, develop the brand identity and execute launch plans)

- **Strategic KOL Engagement & Research Advocacy:** Identified and cultivated deep, trust-based partnerships with renowned Ophthalmology KOLs through the facilitation of **Scientific Advisory Boards, Live Surgeries in Scientific Congresses**, and by serving as a brainstorming partner for **clinical trial identification** and study design.

2/5

Maura Arsiero's Curriculum Vitae

- **Clinical Training & Surgical Proctoring:** Served as the primary **Operating Room (OR) expert**, providing intra-operative surgical training and proctoring to surgeons and clinical teams to ensure procedural excellence.
- **Medical Strategy & Scientific Communication:** execution of global medical-scientific communication plans, ensuring the dissemination of high-quality clinical data across international regions.

Jun 2020 – Sept 2021 Global Surgical Vitreo Retina Product Manager - BVI Medical

- **Portfolio & Offering:** Develop and execute marketing strategies and plans (positioning, targeting, product, place, price and promotion)
- **Product Launches:** Execute impactful WW product launches. Project managing product launch timelines & foreseeing product availability. Development of brand and go-to-market strategies, multiple stakeholder marketing materials (salesforce, surgeons, hospitals, etc.), pricing strategy, promotional plans, product training plans and materials (salesforce and surgeons), and forecasting.
- **KOL engagement:** Engaged with leading surgeons and hospital leadership at scientific conferences and events to educate on portfolio and innovations.
- **Cross Functions Support** – Interface with Training, Events Management and S&OP to ensure adequate support to shape and deliver best in class programs to sustain business.

Ago 2008 – May 2020 Promoted through six leadership tiers from Field Clinical Engineer to International Director - Second Sight Medical Products | EMEA & APAC

- **Clinical Leadership & Field Operations:** Directed regional field personnel and consultants across EMEA and APAC, overseeing clinical trial follow-up and the medical-scientific support essential for high-value retinal prosthesis programs.
- **Medical Science Liaison (MSL) & Spokesperson:** Served as the primary company spokesperson at international scientific conferences and patient advocacy events, leading the medical-scientific dialogue with the ophthalmic community.
- **Surgical Proctoring & Professional Education:** Provided critical intra-operative technical support for complex retinal prosthesis implantations and designed comprehensive training programs for surgeons and highly specialized OR teams.
- **Clinical Trial & Regulatory Compliance:** participated in the European clinical trial data collection and site management, ensuring strict adherence to governmental regulations and monitoring study documentation for CE Mark and FDA approval.
- **Scientific Asset Creation:** Developed specialized medical-scientific educational assets and training materials for hospital leaders and clinical site personnel to support the adoption of pioneering neuro-prosthetic systems.
- **Cross-Functional R&D Partnership:** Acted as a vital bridge between the field and internal R&D teams, providing clinical feedback and advanced diagnostics to inform hardware and software troubleshooting and future iterations.

Oct 2011 – Oct 2015 Project Manager, EC FP 7 consortium (academia + industry)

- **Consortium Project Management:** Led a collaborative EC FP7 project involving both academia and industry partners, managing the intersection of research and industrial development for a four-year term.

Maura Arsiero's Curriculum Vitae

Education

2011 Certificate of Advanced Studies (CAS) in Management of Biotech, Medtech & Pharma Ventures from EPFL, Lausanne (Switzerland)

2011 Certificate of Good Clinical Practice (GCP)

2010 Certificate of Health Insurance Portability and Accountability Act (HIPAA)

2007 PhD in Neuroscience, Univ. of Bern, Bern (Switzerland), grade 'Excellent', Title: "Input fluctuations and the firing of neurons *in vitro*"

2004 FELASA B (certificate for animal experimentation), ETH, Zurich (Switzerland)

2003 Certificate of Chartered Industrial Engineer, Univ. of Genoa (Italy)

2003 Biomedical Engineering (MSc Eng), Univ. of Genoa (Italy), 110/110 Summa cum Laude

I attended many international training courses in Computational Neuroscience, Neuroinformatics, Life Science, and Animal Science.

Languages

Italian: Native speaker

English: Bilingual, C1

French: Bilingual, C1

Computer Literacy

- Windows, Linux
- Microsoft Office (Word, Excel, PowerPoint, Access, Outlook, Publisher, Project)
- MATLAB, C/C++, QT – Graphical User Interface Design, Data Acquisition & HW control
- Claude, ChatGTP, Gemini - NotebookLM, Copilot, DallE, Leonardo, etc...

Scientific Publications

I'm co-author of 3 papers appeared on peer-reviewed journals, and of two edited book chapters. I attended more than 20 national and international conferences, with active (oral/poster presentations) participation.

Honors, awards, and grants

During my undergraduate and graduate years, I was awarded 8 fellowships (from the EC, Onassis Foundation, University of Edinburgh, Swiss Society for Neuroscience, Univ. of Genoa), based on the high quality and relevance of my work.

I received multiple prizes for the excellence of my research.

Hobbies

- Scuba diving (best if done with sharks)
- Dancing (Salsa is my favorite)

4/5

Maura Arsiero's Curriculum Vitae

- Travelling (it opens your mind, it allows you to meet awesome people, to find culinary treasures, to take an objective view to your life)
- Organization of events, meetings, weddings and other celebrations

Rewrite exercise

Have a CV already?

Pull one bullet exactly as it's currently written.

Don't yet?

Go back to last week *anchor and pitch*.
Compress *approach* and *finding* into one bullet.

Writing it down

5:00

1. Pick your source

An existing bullet, or last week's anchor

2. Apply the formula

Action verb, specific task, concrete outcome

3. Cut the excess

Prefer density to persuasion

The 3-second test

Swap bullets

Read your partner's for three seconds.
Can you find the verb and the outcome in that time?

This carries forward

Session 4: the cover letter that argues why this bullet's evidence matters.

Listen for the bios (or google their CVs)

- As next weeks' guests are introduced, notice
 - which parts of their bio sound like CV bullets...
 - and which sound like duty-listing...
